

Fifty⁵⁴Four

THE CAPACITY COLLECTIVE

Introducing FiftyFour

FiftyFour is an online learning and capacity building platform, designed to strengthen and equip ministries in growing their health and impact. It guides ministries towards the next stage of building healthy organisations, enhancing and directing their energy towards their mission. It is a platform where every ministry, everywhere in the world, can access tailor-made organisational health content and courses, absolutely free. It offers not only a space for non-profit and ministry leaders to learn, but also a platform for connecting and growing together.

Its name is inspired by Isaiah 54, where God offers us a radical invitation for expansion, encouraging his people to 'stretch out and lengthen the cords of their tent', 'driving the tent pegs in deeper' and 'not holding back' in the vision God has placed within you. Through this lens, we believe that God wants to grow ministries' vision and reach in ways that are both deep and wide.

How does it work?

Leaders start with the 9D Capacity Assessment that holistically looks at their ministry through the lens of 9 organisational health dimensions. Based on the results of the assessment, FiftyFour creates a learning journey designed specifically for each ministry, considering its needs, lifestage and leadership.

Each course is designed by global specialists who understand the ministry world, delivered in a creative format to maximise learning. In addition, FiftyFour offers Live Learning from specialists where they can go deeper together with peer leaders on specific topics.

A place to connect, learn and grow, FiftyFour offers a world of exceptional resources, carefully curated with ministries in mind. It aims to remove the complexity of leading an organisation, allowing you to focus on your mission and unlock your full potential.
